3. The labor crew will not be sent to your booth without being signed out.
4. Upon completion of their work, you MUST return the laborers to the Labor Service Desk and sign them in.

MATERIAL HANDLING

Drayage and warehouse freight are billed on a round-trip basis, and invoicing will be done from the actual weight as listed on the inbound bills of lading. If you have any questions about material handling, please contact our Customer Service Department. NOTE THAT NO ADJUSTMENTS TO DRAYAGE CHARGES WILL BE MADE ONCE THE SHOW MOVE-OUT HAS CONCLUDED.

WASTE REMOVAL

Environmental Protection Agency (EPA) regulations require that all water soluble cutting and grinding fluids (coolants-synthetics, soluble oil) be removed in approved containers at the end of the show. This service is available from the official General Contractor who will collect the fluids named on the front from special steel barrels (55 gal. drums) and remove them from the show premises. Each exhibitor, however, has the responsibility of collecting and placing the fluids named on the front of his/her barrel(s).

WATER SOLUBLE CUTTING AND GRINDING FLUIDS (COOLANTS-SYNTHETIC, SEMI-SYNTHETIC, SOLUBLE OIL) ONLY SHALL BE PLACED IN APPROVED BARRELS AS MARKED. DO NOT MIX WITH WASTE STRAIGHT OIL, AS THIS WILL RESULT IN A PREMIUM SURCHARGE OF DOUBLE THE QUOTE PER GALLON CHARGE.

WASTE STRAIGHT OIL MUST NOT BE MIXED WITH ANY OTHER MATERIALS INCLUDING WATER SOLUBLE CUTTING AND GRINDING FLUIDS (COOLANTS-SYNTHETIC, SEMI-SYNTHETIC, SOLUBLE OIL) AS THIS WILL RESULT IN A SURCHARGE TO THE EXHIBITOR PER GALLON FOR REMOVAL OF MIXED FLUIDS. ONLY PLACE WASTE STRAIGHT OIL IN DESIGNATED BARRELS.

ELECTRIC SERVICE FOR EXHIBITS AT THE DONALD E. STEPHENS CONVENTION CENTER

Electrical requirements for an exhibit at the Convention Center are based on codes developed by local and national organizations whose professional responsibility is for the safety of all exhibitors and visitors.

Too frequently, fires have been traceable to faulty wiring sometimes because of carelessness and sometimes because of lack of understanding of the risks involved.

In the interest of public safety, every exhibit presented in the Convention Center is carefully inspected to determine if violations exist. If they do, qualified electricians are available to correct the problem. This work will be performed on a time-and-material basis. If the exhibitor does not wish to have the fault corrected, electrical service will not be connected.

If an exhibitor is not informed or does not understand basic safety standards for electrical wiring, an electrician should be consulted before shipment is made to the Convention Center.

SAFE WIRING IS ESSENTIAL

Donald E. Stephens Convention Center is responsible for the total electrical distribution systems and the linking of all electrical items in an exhibit with the power services of the building.

Serious risks are involved which can be reduced with accurate understanding of basic requirements. Safe wiring inside an exhibit is essential.

Wiring that touches the floor must be "SO" cord which is insulated to qualify for "extra hard usage." Cord wiring above the floor level can be "SJ" which is rated for "hard usage."

All flexible cords shall be 3-wire unless the cord is a component part of an assembly which is specifically approved.

The use of open clip sign sockets, latex or lamp cord wire in displays, duplex or triplex attachment plugs are prohibited by order of the Rosemont Fire Department and Electrical Inspection Department.

All electrical equipment and wiring requires evidence of testing and approval by a nationally recognized testing laboratory.

Spot or flood lighting is a hazard when lamps are too close to fabrics or other material which may be affected by heat.

The Convention Center electrical services offer extension cords, spiders and plug molds which provide safety approved multiple plug in capacity.

State of Illinois legislative changes have modified work rule jurisdictions and wage scale schedules in the Chicagoland area. There are seven major unions that have some jurisdiction in the Chicagoland area. The following guidelines will help you in preparing your exhibit to understand these jurisdictions.

WHAT AN EXHIBITOR CAN DO WITHOUT UNIONS IN THE CHICAGOLAND AREA

Chicagoland work-rules modifications now enable exhibitors to perform several set-up tasks which in the past were under union jurisdiction. Each of these are itemized below, and must be completed by full-time employees of the exhibiting company.

- 1) Exhibitors may set up and dismantle their own booth displays, as well as the various tasks outlined below, provided the work is being done by full time employees of the exhibiting company. No outside workers are permitted to provide set-up and dismantle services unless they are members of a Chicagoland Carpenter Union Local with valid trade show jurisdictions
- 2) Exhibitors may use hand tools and power tools to perform work within their booths.
- 3) Exhibitors may affix clamp-on lights to the top of their booth displays.
- 4) Exhibitors may calibrate and do repair work on internal circuit boards, and do interconnecting of peripheral computer equipment.
- 5) Exhibitors may do the connection of lighting, video equipment and light bulbs to an electrical outlet when the outlet has been ordered by the exhibitor.
- 6) Exhibitors may hang pictures, graphics, logos, etc. onto a backwall display when such items are designed to be affixed by pre-set velcro strips, permanently mounted hooks, or snaps.
- 7) Exhibitors may hand carry small packages, pop-up displays and desktop computer equipment provided it can be done without the use of a fork-lift, flat cart or dolly, only from a designated parking area.
- 8) Exhibitors may inflate balloons.
- 9) Video taping may be done by exhibitors within the confines of their own booths using equipment owned or rented by the exhibiting company, provided such taping does not conflict with show management regulations, and does not require tools or ladders.
- 10) Exhibitors may un-pack, re-pack and set out their own product line within the booth for display purposes.

CARPENTERS UNION

Carpenters handle the erection and dismantling of display and exhibit booths. This includes all display work with the exception of machinery, signs or lighted headers, unless the sign or header is a permanently attached part of the display. Carpenters also recrate machines for outbound loading. Millwrights, a division of the carpenters union, handle the assembly and the leveling of machinery, as well as the attachment of all guards and shields.

DECORATORS UNION

Decorators handle the installation of signs, drape background, table skirting, and all other items of decorative nature that must be done after a display background is erected.

ELECTRICAL UNION

Electricians handle all electrical work, which includes supplying power lines to your booth, connecting equipment to the proper outlets, installing any signs or headers that are lighted, unless they are permanently attached to the exhibit backwall, and the running of cable within the exhibitors booth.

MACHINERY MOVERS & RIGGERS UNION

Riggers handle all machinery. This includes the unloading of the machines from the trucks, moving the materials to your booth, and a one-time spotting of display ready equipment, which the exhibitor must supervise at the time of unloading. Riggers also remove skids and reskid machines, uncrate machines, and respot machines in the booth if needed. This service must be ordered as needed, at exhibitor's expense.

PLUMBERS UNION

Plumbers handle all plumbing work such as compressed air, water/drain, or natural gas.

TEAMSTERS UNION

Teamsters handle all freight inside the exhibit hall. They unload all trucks or vehicles, deliver the materials to your booth, and remove and reload materials at the close of the show.

THEATRICAL STAGEHANDS UNION

Stagehands assemble portable lighting and sound systems as well as picture screens 10' x 14' in size and larger. They also set stages, operate lighting and sound consoles, and hang lighting trusts and speaker systems.

Hanging of signs, both electrical and non-electrical, is permitted at the Donald E. Stephens Convention Center provided that doing so complies with show management rules and regulations. Exhibitors must adhere to all of the following conditions and limitations listed below:

- 1) The top of a sign may not exceed the height limitation specific to the booth location and show regulations.
- 2) All hanging signs must be sent to RES warehouse, using the hanging sign shipping label included in this exhibitor service manual by the specified deadline date.
- 3) The total weight limit of the sign or materials is not to exceed 1500 lbs. unless approved by RES and the Donald E. Stephens Convention Center.
- 4) All signs, regardless of size, should be constructed of lightweight metals and plastic to allow greater flexibility and ease of installation.
- 5) The final placement of all hanging signs shall be determined by RES prior to installation to ensure minimum stress to the supporting framework.
- 6) No signs are to be hung from any electrical fixtures, raceways, gas, air, fire protection piping, supports or hangers.
- 7) All electrical and neon signs must conform to electrical codes of the Village of Rosemont.
- 8) RES Decorators are responsible for all hanging signs. RES will pre-assemble and hang all signs. No carpenter labor through a display house will be allowed to assemble any hanging sign.
- 9) Set-up instructions must be included with the Hanging Sign Order Form and with the sign crates.
- 10) Because of the structure of the ceiling and the location of exhibits in relation to support beams, the hanging sign may have to be moved from the original specifications.
- 11) Exhibitor personnel or display house may supervise on your behalf. Exhibitors who do not provide supervision (either company personnel or display house) agree to accept the charges for time, materials and equipment as determined by RES.
- 12) You are required to make arrangements prior to move-out for the outbound dismantling, packing and shipping of your hanging sign. RES cannot be held liable for damages or misplacement of sign(s) should outbound dismantling arrangements not be made. All pertinent information and arrangements must be given to the RES Service Center .
