Welcome from Koelnmesse

A warm welcome to Rosemont and h+h americas – the second edition of our annual platform for the North American Soft Crafts/Fiber Arts Industry and sister event of Germany's h+h cologne show.

Over the past several years, the trend towards home-based activities has gained in popularity and has led to accelerated growth of this industry – creating the perfect backdrop for uniting all the craft segments under one roof again this June.

What's there to do and see? Source from over 260+ exhibitors from 21 countries in 15+ product categories or learn something new from attending 50+ educational sessions. Education will be offered in various formats such as masterclasses, business classes, panels, learning labs and keynote sessions.

This directory contains all the essentials you need to navigate our show, such as Exhibitor & Product Listings, Show Hours, Conference Program Overview and our special Onsite Show Events.

We will send you the latest updates and news every morning in our E-news flash. And continue your experience with h+h americas on our year-round digital community h+h connect which will be your resource for networking with your industry, educating yourself, and sourcing products from leading suppliers.

We're already planning for the 2024 event! Based on extensive feedback and recommendations from many players and sources in the industry we have been asked to move h+h americas to earlier dates next year. We will therefore hold the show from May 1 – 3, 2024! We sincerely hope that you will support this change. And again you can look forward to a jam-packed 3 day event!

On behalf of the entire h+h americas show team, we welcome and thank you for making h+h americas part of your schedule! We wish you a fun, productive, and memory-filled experience!

Gerald Boese
President & CEO
Koelnmesse GmbH

Mette Petersen

Darrin Stern
Show Director h+h americas
Koelnmesse Inc.

Welcome from the Craft Industry Alliance

I want to wish you a warm welcome to h+h americas. This show is now in its second year and, like most two-year-olds, we're confident on our feet, curious, and ready to grow. It's truly exciting and an honor to be part of.

When I first was presented with the idea of bringing h+h to North America, back in the summer of 2021, I knew it would change the shape of our industry over time. Trade shows are significant events, bringing businesses and industry leaders together to unveil new products, understand trends, and make connections. What would a single, unified show for the entire industry be like? The potential was huge.

Working together with the h+h team since then, I've gotten a clearer picture of the show's real impact. When we unite in person once a year, we have the opportunity to talk together about big picture issues and how they affect our industry like sustainability, AI, and the war in Ukraine. We also have the ability to connect across sectors, germinating new ideas and collaborations. We truly need this opportunity to come together.

It's been over three years since the onset of the pandemic and we are now realizing the full impact of this global crisis on the crafts industry. During that very difficult period we saw a massive resurgence in interest in craft and it's our job now to keep that momentum of consumer demand going, and to think about how we can continue to affirm the value of making things by hand.

I hope during the show you'll be inspired by what you encounter and that you'll take your excitement back with you, fueling your creativity in the year to come.

Cheers to a fun, inspiring, and productive h+h americas!

All my best,

Abby Glassenberg
Co-founder and President

Congrats to the Local Quilt Shop Winners!

The Local Quilt Shop Contest was created to highlight the efforts of local quilt shops and provide the general public an opportunity to show their appreciation.

By supporting local quilt shops, we are building community, maintaining centers for inspiration and enriching our local economies. ByAnnie.com and the sponsors are dedicated to local quilt shops and their diverse sewing communities.
