The inaugural NEXGEN Featured Artist series at h+h americas marks a groundbreaking celebration of emerging young talent in the crafts and fiber arts community.

This visionary program, focusing on artists under 18, is designed to spotlight and elevate the innovative work of these promising creators. It's a platform that not only showcases their remarkable skills but also empowers them to shape the future of their craft, ensuring a thriving and dynamic legacy for the generations to come.

### FEATURED ARTIST Genesis Hall

@gennyfromthequiltblock

Genesis Hall, sometimes called Genny for short, is a 14 year old avid quilter. After settling down with her family from spending most of her childhood living in other countries with the military, she was eager to take sewing classes. Though she's only been sewing and quilting since the age of 10, she's known to take on a good challenge and try new skills with each new project. Genesis loves quilting mostly but also enjoys sewing garments and bags too. Lately, she has branched out into other fiber arts and is learning to knit.
